

COLL-IN™

Meetings, Presentations and Breakout Sessions Made Simple

Transform Your Business Collaboration with COLL-IN Meetings, presentations, and breakout sessions just got a serious upgrade. With lightning-fast setup, flexible design, and powerful features, COLL-IN brings your discussions to life like never before. Say goodbye to static meetings, welcome a new era of dynamic interaction and effortless collaboration.

What is COLL-IN™?

Take your meetings to the next level with COLL-IN, the smart collaboration tool designed for seamless teamwork. Whether you're presenting, annotating, or sharing content across multiple sources, COLL-IN makes it effortless. From interactive whiteboarding to connecting multiple laptops, it streamlines every step, so you can focus on what matters most: engaging discussions and productive outcomes.

Make Your Screen the Star of the Show

Step aside boring slides, it's time to turn up the wow! This all-in-one interactive canvas was made to dazzle on video walls, LED, and LFD displays.

Collaboration Re-Imagined

- Mix it up like a pro, slides, videos, websites, desktops, if you can dream it, you can show it.
- Mark it up, map it out, draw, doodle, resize, and mind map live like a creative wizard.
- Roam the stage like you own it, walk, talk, and wow while staying in full control.
- Captivate from hello to mic drop, boost audience buzz and bring your ideas to life.
- An experience like no other, not a whiteboard, not a slide deck, not a click click presentation, but truly engaging with you at the centre.

Leave 'blah' in the past. Let your visuals do the talking.
