

COLL-IN™ Learning, Sharing and Collaboration Made Simple

Lessons, lectures, and group projects just got a serious upgrade.

With lightning-fast setup, flexible design, and powerful features, COLL-IN brings teaching and learning to life like never before. Say goodbye to static lessons, welcome a new era of dynamic interaction and effortless collaboration for students and staff alike.

What is COLL-IN?

The smart collaboration tool designed to simplify every aspect of classroom and staff teamwork. Whether you're presenting a lesson, annotating key points, or sharing content across multiple sources, **COLL-IN** makes it effortless. From interactive whiteboarding to connecting multiple teacher and student devices, it streamlines every step, so you can focus on what matters most: engaging lessons, clear communication, and productive outcomes.

Make Your Screen the Star of the Show

This all-in-one interactive canvas is designed to captivate on classroom displays, and large format screens.

Collaboration Re-Imagined

- Mix it up with lesson slides, videos, websites, and desktops, if you can teach it, you can show it.
- Annotate, highlight, map ideas, doodle, resize, and mind map live like a creative educator.
- Move freely around the classroom, guide discussions, and inspire while staying in full control.
- This is an experience like no other, not just a whiteboard, not just a slide deck, but truly interactive teaching with you at the centre.

Let your visuals bring teaching to life.
